WHIRLPOOL WARRANTY POLICY UPDATE

Effective 1/20/15, Whirlpool will be updating their warranty period **from 90 days to 1 year!**

In addition to this, Whirlpool has changed their policy regarding parts that are damaged or defective, in that they will **now be sending a replacement part, rather than issuing a credit**, except for core items and FIP doors, which will continue to be credited. In order to process a defective claim, we will need the model #, serial #, customer name & address, and what the problem is with the part.

If you have any questions, regarding this new policy, please contact your sales rep.

Thank you!
